ABOUT ME

I am a mobile developer specializing in iOS and Android applications, bringing two years of experience in finance and e-commerce projects. I played a pivotal role in developing features such as Pix integration, seamless postal service collaboration, efficient carrier management, and streamlined payment system integration.

PROFESSIONAL BACKGROUND

Digital Offer - Mobile Developer

2022- I am currently employed in this role.

"Led Android and iOS app development, excelling in iOS with RxSwift, Alamofire, MVVM-C, and diverse layout creation. On Android, transformed Java legacy to Kotlin, emphasizing MVVM, LiveData, XML layouts, state management, and lifecycle. Expertise spans both environments for efficient app delivery."

XDS - Junior IOS Developer

2023-2023

"Junior iOS Developer with advanced RxSwift and RxCocoa skills from a successful internship. Applied expertise to White Label and banking apps, gaining a deep understanding of MVI architecture. Ready to contribute and lead in dynamic and innovative environments."

XDS - Intern in IOS Development

2022-2022

During my internship in iOS development, I deepened my knowledge of RxSwift and RxCocoa, applying these skills to White Label projects and within the context of banking applications.

ACADEMIC BACKGROUND

Bachelor's Degree in Software Engineering

2023/2026 - FIAP
